**\*How does aggregate scoring work?**

*The two clubs drawn as a pair play each other twice, home-and-home. The winner is decided by adding together the **scores** from the two games -- the **aggregate score**. If the **aggregate score** is tied, then the winner is the club that **scored** more goals on its opponent's field (usually referred to as "the away goals rule"). If the score is after the final game. Penalty kicks from the mark will ensue.*

## GK Attire

According to the President's Cup rule book (Rule 304, Page 7), numbers on goalkeeper jerseys are **optional**. It is suggested that teams travelling with multiple goalkeepers have numbers on their goalkeeper jerseys, but it is NOT required.

Goalkeeper jerseys **should** be a different color than the opposing goalkeeper. BUT, if the opposing goalkeepers jerseys are the same color, and neither has another jersey to change into, by rule, the game will proceed as normal.

Goalkeeper socks must be a different color than the **opposing** teams socks. Goalkeeper socks may be the same color as his/her teammates socks, but they are **not required** to be the same color as his/her teammates socks.
